The Penny Loyd Student Life Center is Now Open!

After decades of need... years of planning... and months of construction... we opened the doors of the new Penny Loyd Student Life Center, an educational and recreational facility that integrates all of our children's after-school activities under one roof! To our many generous donors who supported the construction of the building, architect Russell Clark, construction company Brookstone, Pieper-Houston Electric L.P., and Electrical Tech Services (ETS)... Thank you for bringing our dream to life!

Below: Penny and Paul Loyd dedicate the Student Life Center in Penny's honor, for her commitment and service to our children. Penny and Paul will also be honored at the Heritage Award Dinner (see page 8).

We can now have education, recreation, art, and music all at the same time... and in the same place!
Clockwise from top right: Education Center, Music & Theater Arts Room, Arts & Crafts Studio, and Gym
